# ENERGY & RESOURCE INVESTING CONFERENCES

## AUDIENCE

The organisers expect 80 to 150 participants:

- Significant institutional and private investors
- Journalists of the main Swiss and Singapore media

## SPONSOR PACKAGE

- > company presentation: 25 minutes
- > invitation to an Exclusive Dinner with a selected group of investors
- > logo on the cover of the invitation and on Academy & Finance's website
- > short company presentation on the invitation and on Academy & Finance's website
- > distribution of the slide presentation on the CD rom after the conference to each delegate
- > exhibition booth in the coffee break area

Price : 10.000 euros

## BENEFITS FOR THE COMPANIES

The companies can present to a select group of substantial institutional and private investors in a very exclusive environment.

The sponsoring company has multiple occasions to make contacts with potential investors. We provide a permanent coffee break so that investors can meet the companies through the entire day.

The organisers proactively introduce the investors to the CEOs of the companies during the event. We assist the companies to make the most of the event.

The funds and investors have actively been investing in this sector for several years. The events are exclusively reserved to substantial investors and a few media people. The sponsoring company is presented in a very exclusive context.

Our keynote speakers are first class.

## TESTIMONIALS

"The venue was exceptionally structured with a presentation on various market topics intermingled with company presentations. The audience gets bored with too many run-on company presentations so having a highly visible individual provide market comments and topics of interest throughout the day kept everyone paying attention. The speakers were excellent - I have never taken so many notes at a conference! The attendee list (investors) were top rate. ONE OF THE BEST CONFERENCES OF THE YEAR"

**Diane Garrett, President & CEO, Romarco Minerals Inc.**

"I found the Gold Investing conferences to be very well organized and attended by quality individuals. I was very impressed and think the trip to Europe was definitely worth our while."

**Rick Van Nieuwenhuysse, President & CEO, NovaGold Resources Inc.**

# ENERGY & RESOURCE INVESTING CONFERENCES

## THE ORGANISERS

**Academy & Finance** is a Swiss based conference organiser established in Geneva since March 2000. Academy & Finance has organised more than 300 events mainly in Geneva, Zurich and Luxembourg. Academy & Finance started to organise Commodities Investing conferences in 2004 with Jim Rogers in Geneva and New York.

**Carriere Consulting Corp.** is specialised in providing high end investor relations services in the energy and resource sector. Established in Vancouver, Carriere Consulting Corp. has developed a rich international network with substantial institutional and private investors worldwide. Carriere Consulting Corp. is recognised by the leaders in this industry.

Academy & Finance (Geneva) and Carriere Consulting Corp. (Vancouver) have combined their expertise in conference organizing and investor relations management to create exclusive events with quality institutional and private investors, world class experts and a select group of high potential energy and resource companies. In the past three years we have hosted 28 conferences in Geneva and Zurich on Uranium Investing, Gold Investing, Base Metals Investing, Energy Investing and Oil & Gas Investing.

Stimulating speeches by world class experts, company presentations by the CEOs, and an exclusive networking dinner with a closing cocktail party, formed rich and memorable events. Participating companies created relationships with quality investors and media representatives in an interesting context and presented a distinguished image to the investment community.
