He interacted with the OECD on the weaknesses and ambiguities of the Common Reporting Standard. Highlighting Caribbean countries are using bilateral agreements, rather than the MCAA, to limit exchanges. The misuse of residence by investment, the mistaken exclusion of faux broad participation retirement plans, nil reports for zero cash value policies and irrevocable trusts. Advised several European competent authorities and EU Finance Federations on the misapplications in AEOI guidelines. Authored e-learning scripts for Baker & McKenzie regarding Common Reporting Standard. Wrote several articles for Tax Justice Network. Testified to German Parliament on weaknesses of the Swiss anonymous withholding tax on interest.
